Re: Request for Administrative Clarification — Permittee Status for TPDES Permit No. WO001617001

Dear Municipal Permits Team,

The Scenic Loop–Helotes Creek Alliance (SL-HCA) respectfully submits this request for administrative clarification regarding the permittee associated with TPDES Permit No. WQ001617001, issued for the proposed wastewater treatment facility at the Guajolote Ranch development in Bexar County, Texas.

In reviewing publicly available records from the Texas Secretary of State, we noted that **Municipal Operations, LLC**, listed as the permit applicant and permittee of record, is currently shown as **INACTIVE** due to involuntary termination for franchise tax forfeiture.

Because the legal status of the permittee affects the validity and enforceability of a TPDES permit, we respectfully request clarification on the following points:

1. Whether Municipal Operations, LLC is currently recognized by TCEQ as an active and legally authorized permittee for TPDES Permit No. WQ001617001.
2. Whether the agency has received any filings, updates, or transfer requests related to this permit since the permittee's reported change in status.

3. Whether the permit file will be updated to reflect the permittee's current legal standing as shown in the Secretary of State's records.

This request is made solely for the purpose of ensuring administrative accuracy in the permit record. We appreciate your assistance and look forward to any clarification you can provide.

Sincerely,

RANDY R. NEUMANN
